A Fine Movie House

Princess Theatre, under the management of Cavanaugh Bros., is becoming a very popular amusement place for the people of our little city, and each of the three nights (Tuesday, Thursday and Saturday) finds a large crowd in attendance, and all who go are well satisfied with the entertainment that is dished up to them.

Since assuming control of the Princess, the boys have made many decided changes. The room has been neatly decorated, and within the past few weeks a new drop curtain, containing ads from many of Yale's merchants, also a fine screen has been added.

The pictures which are shown each evening come under the Class A head, and the crowds that attend every show prove that the boys' efforts are appreciated.

The Direct Primary for Yale

On Friday, the 18th day of February, a special election will be held in Yale for the purpose of ascertaining the will of the electors on the proposition of whether or not candidates for all elective offices in the City of Yale shall hereafter be nominated by direct vote.

In order that there may be no misunderstanding on the part of our citizens as to the purpose of this election and the function of the primary we give this brief explanation.

We now have in Michigan a direct primary for the nomination of President, U. S. Senators, Members of Congress and all state, legislative, and county officers, yet the townships and many cities of the state, the city of Yale being among the latter, have been lax about adopting the primary system of nomination. It would seem to us that a measure receiving the stamp of approval for nomination of candidates for the more important offices within the gift of the electorate, could be profitably employed in the nomination of our city officials.

To apply the primary to Yale would accomplish the following good results:

In the past, under the caucus system, as everyone knows, if a voter wanted a voice in the nomination of party candidates it was necessary for him to attend a ward caucus one night, at which caucus the ward candidates, such as alderman and constable were nominated, and later, on another night, attend a city caucus, at which the city officers such as mayor, clerk, supervisor and treasurer were nominated. In view of the fact that the caucuses always came in March (generally on the worst nights in the month) it took a patriot, indeed, to stem a March gale for two or three hours at the Feed Barn or at the places in the wards designated for holding the ward caucuses for the purpose of assisting in the nomination of his party candidates.

In the past, owing to the inclemency of the weather and the hours at which the caucuses were held, a large number of our citizens found it inconvenient to attend, feeling that the sacrifice was greater than their duty in the premises. This was especially true of many of our older citizens whose health was such that they did not feel "up" to engaging in the "free-for-all" at a city caucus.

Under the primary system this sacrifice on the part of the electors will be dispensed with, as the primary will be held on the first of March; the names of the candidates of the various parties will be printed on the ballots, (being placed thereon by petition) and any time during that day the voter, at his convenience, can go to the polls, cast his vote and go about his business.

Now as to the expense of the primary. Under the old system each party held caucuses in the three wards and a city caucus. The expense of paying rental in the places in the wards where the caucuses were held was double the cost of four inspectors who would conduct the primary at the council chambers.

The most wholesome benefit, however, to be derived from the direct primary would be the elimination of mob rule. How often have we seen the annual Feed Barn caucus stamped by a mob, in many cases containing a goodly percentage of "floaters," who had no legal right to vote, and would never attempt to vote at an election, but who had no scruples against dropping a "ticket in the hat" at the caucus when no one was looking.

We feel that the adoption of the direct primary by the citizens of Yale is a progressive step that should have been inaugurated a long time ago, and we heartily urge that all loyal citizens who have the best interests of the city at heart, go to the polls on the 18th and vote "Yes" on this proposition.

The following will appear on the ballot:

"Instructions—Make a cross in the square to the left of the words 'Yes' or 'No' on each proposition submitted."
